SUMMARY

Crypto-native operator who grew an NFT community to a \$2M raise through Twitter/Discord-first GTM. Four years living on crypto Twitter through a full market cycle: founder-voice content, partner co-announcements, Spaces, and weekly community programming. Looking to bring that channel instinct to the voice of Base.

EXPERIENCE

Bobos of War — Co-Founder & Community/Partnerships Lead

Remote / Web3 • 2020 – 2024

- Ran the project's X/Twitter and Discord presence from zero audience; community-led GTM produced a \$2M+ raise with no paid media.
- Built reach through ecosystem amplification: closed 40+ partnerships with crypto and NFT projects via founder-direct DMs, turning each into co-announcements, joint Spaces, and cross-community campaigns — every deal was a reach multiplier.
- Produced the Bobo Olympics: recurring weekly content programming — a multi-week, multi-project community competition that sustained engagement for months, co-marketed by every partner community.
- Held the community together through the 2022 drawdown with transparent treasury updates, AMAs, and consistent posting cadence — comms under FUD, not just in a bull market.
- Shipped content weekly across a distributed team (art, dev, marketing, community) in multiple time zones: clear briefs, written decisions, zero missed weeks during the series.
- Deep fluency in EVM ecosystems, token economics, and on-chain culture — can write for builders without a glossary.

Bethesda Salon — Co-Owner

Bethesda, MD • 2014 – 2020

- Co-owned two locations for 6 years with full P&L; built retention programs and customer communication systems — audience care before it was called community management.
- Managed a team of 11; ran scheduling, vendor relationships, and operations with checklist-level attention to detail — the same muscle as running an always-on social channel.

PRIOR EXPERIENCE

Hospitality & Culinary (2012 – 2020): Executive Chef at Driftwood Kitchen (DC) — promoted from Line Cook in 10 months. High-volume, customer-facing work under pressure.

CORE SKILLS

- **Social & Community:** X/Twitter growth, Discord ops, content calendars, Twitter Spaces, AMAs, partner co-marketing, community escalation/FUD response, social analytics.
- **Crypto / Web3:** EVM / L2 ecosystems, NFT markets, token launches, tokenomics, crypto Twitter culture.
- **Production:** async cross-functional coordination, weekly programming cadence, brief-driven delivery.
